- Long Beach College 2016 Computer Engineer

Reuben Bagtas

Web Developer(Full Stack)

Summary

Hard-working web developer with a flair for creating elegant solutions in the least amount of time. Developed an ecommerce webapp. Passionate about software architecture and computing. Regular attendee of web developer meetups and hackathons.

Experience

Full Stack Web Developer Resident **2017 – Present**

Coding Dojo, Coding Bootcamp

Projects:

- ≡ YumYack: Angular 4, MongoDB, Node Js, Express: Website where users can post and share pictures of odd foods. Users are able to add friends, like, share and browse other posts. Features rating system for most liked food and top contributors. (Currently still in development).
- ≡ The Wall Project: Angular + Node.Js + Express + MongoDB: A social network website in Angular where users can post message on their walls, post comments within each messages, able to "like" and show number of "likes" within its respective message or comment.

Project Coordinator **2015 – 2017**

Science & Engineering Club (Long Beach College)

- ≡ Magic Mirror: Raspberry pi powered monitor behind a double sided mirror. Includes widgets for displaying the weather forecast, the date/time and a nice randomly generated greeting.

Meat Cutter **2009 – 2017**

Costco Warehouse, Meat Department

- ≡ Negotiated contracts with vendors, leveraging volumes and frequency.
- ≡ Used specific equipment including electric saw, hand saw, puma slicer, tenderizer, butcher's knife, boning knife and grinder

Supervisor **2009 – 2015**

Costco Warehouse, Food Court Department

- ≡ Assists management in administrative duties; such as scheduling employees, writing supply orders, tracking employee errors, coordinating/trafficking safety training using AS400
- ≡ Conducted job analysis and job evaluations, resulting in quality job specifications.
